

The stunning bricked home offers 6600 finished square feet of beautiful space. A fantastic oversized front door with sidelights makes a great statement under a covered, arched entry. Inside, a noteworthy architectural antique graces the foyer's niche, making a spectacular entry. The foyer's hardwood floors flow through to dining room which features two recessed areas, tray ceiling, precise trim, wainscot, exceptional wood carvings and a large bayed window. This room is truly spectacular. The great room is yet another beautiful space, with two-story coffered ceilings, a fireplace with a stacked stone surround, built-ins, large windows with oversized transoms and double french doors that open to the back deck overlooking the woods. A pass-through from this area to the kitchen is a great feature that can be closed when entertaining. The kitchen provides a great deal of work space and storage areas. With granite countertops, stainless appliances, upscale lighting, 2 sinks and a pot-filling faucet, LVT floors, nice island, a large breakfast area, and a walk in pantry, the kitchen is a wonderful space. The four season room, attached to the kitchen and opening to the back deck, is a great gathering area under cathedral ceilings. The kitchen opens to the back hallway, providing a out-of-sight area for a second refrigerator. Double stained glass french doors conceal the "utility wing" of the home, which includes a large walk-in closet, pet room with a stone dog-bathing shower, laundry room, power room and a door to the covered side patio.

The home's office has noteworthy wood trim and panels gracing the walls and coffered ceiling. A walk in closet, built in book shelves and a large arched window complete the look and function of this great space. The library is adjacent to the main level master suite which offers a sitting area, direct access to the deck, double stained glass doors to the bathroom (two vanities, soaking tub, glass block shower with 2 entries) and to the enormous walk in closet with sky lights.
